

Chapter 4

Comment Documents and Responses on the *Supplement*

This chapter presents scanned images or transcriptions of all oral or written comments submitted to DOE on the *Supplement*, with the DOE responses. In most instances, the response appears on the same page as the corresponding comment. Where many comments appear on a single page, however, the responses may extend to succeeding pages. The comments and responses are presented in the following order:

- Comments from Federal agencies.
- Comments from special interest groups and organizations from foreign countries. The comments are integrated alphabetically by country.
- Comments from State and local officials and agencies, special interest groups, organizations, companies, and individuals. The comments are integrated alphabetically by State.
- Oral comments recorded at the Washington, D.C. public hearing.
- Campaign statement of 126 nongovernmental organizations.
